****PRICES SUBJECT TO CHANGE WITHOUT NOTICE****

***OTHER PRE-OP/POST-OP FEES:** Bay Area Hospital Uninsured/Non-Covered Cash Discount pricing includes the Pre-Op Visit. There are other fees required for Labs, EKG and a Post Bariatric Swallow Study. Depending on your medical history, the following charges may also apply: Chest X-Ray (plus cost of professional reading) and Medical Clearance Consultation. Psychiatric evaluation with Social Worker and Dietician consultation are also billed separately. You are not required to have these tests done at our facilities. If any tests are not done at Bay Area Hospital or NBMC, you will be charged from that facility at their rate (such as psychiatric evaluation).

****SELF PAY PATIENTS:** See also: Total Charge Required Prior to Procedure (above).

Bay Area Hospital: Payment must be completed with Bay Area Hospital at least 10 days prior to the scheduled surgery date. For pre-registration and to make payment with Bay Area Hospital, please call (541) 269-8078.

***IMPORTANT INFORMATION & CONDITIONS (BAH)

GASTRIC BYPASS PATIENTS: The prices listed above are based upon an uncomplicated laparoscopic procedure being completed. If there are complications or precautions taken that require the patient to remain hospitalized beyond the 3rd day, or if a secondary or subsequent procedure is performed, the package price is void and the usual and customary charging format is utilized for the entire stay. If any days (including the first day) are necessary in the Intensive Care Unit (ICU) or Intermediate Care Unit (IMCU) the package price is void and the usual and customary charging format is utilized for the entire stay.

LAP-BAND REMOVAL with CONVERSION TO GASTRIC SLEEVE PATIENTS: The price listed above is based on an uncomplicated laparoscopic procedure where the patient is discharged from the hospital before midnight on the day of surgery. If the patient remains hospitalized beyond midnight on the day of surgery, or if a secondary or subsequent procedure is performed, the package price for the procedure is void and the usual and customary charging format is utilized for the entire stay.

GASTRIC SLEEVE SAME DAY PROCEDURES: The price listed above is based on an uncomplicated laparoscopic procedure where the patient is discharged from the hospital before midnight on the day of surgery. If the patient remains hospitalized beyond midnight on the day of surgery, or if a secondary or subsequent procedure is performed the Outpatient package price for the procedure is void and converts to the Gastric Sleeve Overnight Procedure Agreement and Pricing. If any days (including the first day) are necessary in the Intensive Care Unit (ICU) or Intermediate Care Unit (IMCU) the package price is void and usual and customary charging format is utilized for the entire stay.

GASTRIC SLEEVE OVERNIGHT PROCEDURES: The price listed above is based upon an uncomplicated laparoscopic procedure being completed. If there are complications or precautions taken that require the patient to remain hospitalized beyond the 3rd day, or if a secondary or subsequent procedure is performed, the package price is void and the usual and customary charging format is utilized for the entire stay. If any days (including the first day) are necessary in the Intensive Care Unit (ICU) or Intermediate Care Unit (IMCU) the package price is void and the usual and customary charging format is utilized for the entire stay.
