*The package price listed above is specifically for an uncomplicated Laparoscopic procedure where the patient is discharged from our surgery center the same day. If there are complications or precautions taken that required the patient to be hospitalized, or if a secondary or subsequent procedure is performed, the package price is void and the usual and customary charging format is utilized for the entire hospital stay. If any days (including the first day) are necessary in the Intensive Care Unit (ICU) or Intermediate care Unit (IMCU) the package price is void and the usual and customary charging format is utilized for the entire stay.

***The cash price includes one year of follow up appointments. It does not include labs or EKG.**
